

### Hard-stop triggers (global, all roles):

- **Idle timeout** → warning at 14 min, logout at 15 min.
- **No internet** → `navigator.onLine === false`.
- **API 5xx** → `service_down`.
- **Maintenance** → 503 + `detail="maintenance"`.
- **Subscription expired** → 402.
- **Inactive user** → 403 + `detail="inactive_user"`.
- **No school access** → after `/auth/me` completes with 0 schools.
- **Route errors** → `errorElement` (data router error boundary).

All are already wired in the frontend and apply to all roles.

| Environment | Git Branch | Vercel URL           | Render Backend       | Neon DB Branch |
|-------------|------------|----------------------|----------------------|----------------|
| Development | dev        | dev.vidyatrack.com   | vidyatrack-dev-api   | dev            |
| Staging     | stage      | stage.vidyatrack.com | vidyatrack-stage-api | stage          |
| Production  | main       | vidyatrack.com       | vidyatrack-prod-api  | main           |
