

# VIDYATRACK – PILOT SIGN-OFF DOCUMENT

## 1. Document Overview

Document Name: VidyaTrack Pilot Sign-Off  
Product: VidyaTrack  
Pilot Scope: Single School  
Environment: Pilot / Pre-Production  
Prepared By: Business Analyst  
Sign-Off Authority: School Management & Product Owner

## 2. Pilot Objective

The objective of this pilot is to validate that VidyaTrack:

- Supports daily school operations accurately
- Is usable by teachers with minimal training
- Delivers reliable parent communication
- Preserves academic data continuity
- Enforces role-based access control correctly

## 3. In-Scope Roles

- Teacher
- Principal
- Management
- Parent (notification only)

## 4. Pilot Scope Confirmation

The following features are INCLUDED in the pilot:

Teacher:

- OTP authentication
- Daily attendance (same-day edit only)
- Marks entry for Unit, Mid-term, Final exams
- Mandatory remarks for marks
- View student personal and academic data
- Add and view student notes
- Consolidated exam results to parents

Principal:

- OTP authentication
- View students, teachers, attendance, marks (read-only)
- View student notes
- Parent communication
- Read-only enforcement

Management:

- School structure setup (classes, sections, subjects)
- Teacher and principal registration
- Teacher activation / deactivation
- Teacher replacement
- Teaching assignments
- Student creation and management
- Read-only academic oversight
- Parent communication
- Management access locking

---

## 5. Out-of-Scope Items

---

- Parent login or portal
- Analytics dashboards or reports
- Mobile application
- AI or predictive insights
- Multi-school support
- Financial or fee management

---

## 6. Acceptance Criteria (Pilot Success)

---

The pilot is considered successful if:

- Teachers can complete attendance and marks without errors
- Same-day attendance edit works correctly
- Parents consistently receive notifications (WhatsApp → SMS fallback)

- Consolidated exam results are delivered correctly
- Student notes persist across teacher changes
- Principal access is strictly read-only
- Management permissions are enforced correctly
- No duplicate or missing academic data is observed

---

## 7. QA & Validation Status

---

### Testing Completed:

- UI testing for Teacher, Principal, Management
- Integration testing for attendance, marks, notes
- Permission enforcement validation
- Notification delivery validation
- Intermittent internet handling

### Outstanding Critical Defects:

- None

### Known Limitations (Accepted for Pilot):

- Internet dependency at school
- Manual OTP dependency

---

## 8. Data Integrity & Compliance

---

- Academic data is immutable after submission windows
- Attendance edits restricted to same day
- Marks require mandatory remarks
- Student notes are append-only
- Role-based permissions are enforced at backend
- No unauthorized data access identified

---

## 9. Risk Acknowledgement

---

### Identified Risks:

- Intermittent internet connectivity
- Teacher onboarding learning curve

### Mitigation:

- Retry-safe submissions
- Minimal UI complexity
- Pilot monitoring and support

---

## 10. Go-Live Readiness Declaration

---

Based on:

- Completed functional validation
- Role-wise acceptance
- QA sign-off
- Business requirement coverage

VidyaTrack is APPROVED for pilot go-live.

---
