VidyaTrack: Detailed Happy Path Test Suite

Date: 2026-02-26

Project: VidyaTrack School Management System

Test Type: Functional / End-to-End (Success Paths Only)

=====

=====

Real-world pattern (for your startup)

- 1. Bootstrap first `super_admin` once (seed/migration/admin script).
- 2. Super admin logs in and creates first school + management admin.
- 3. Management handles teachers/students/sections.
- 4. Teachers log in and operate daily workflows.

1. Super Admin: School Creation Flow

Objective: Verify that a Super Admin can log in and successfully register a new school entity.

Step	Action	Expected Result	Status (Pass/Fail)
1.1	Navigate to /auth/login	Login page loads with Country Code and Phone input.	Pass

Step	Action	Expected Result	Status (Pass/Fail)
1.2	Select Country Code +1 and enter 6198329657	System accepts the input and "Send OTP" button enables.	Pass
1.3	Click "Send OTP" and check Backend Terminal logs	OTP is logged in the terminal (Local Mode).	Pass
1.4	Enter the 4-digit OTP at /auth/verify	User is redirected to the Super Admin Dashboard.	Pass
1.5	Click "Create New School"	School Registration Form appears.	Pass
1.6	Enter School Name, Address, and Management Phone Number	Form validates; "Submit" button is clickable.	Vidyatrack Public School 14021 whisling teal dr, 6190000001
1.7	Click "Submit"	Success toast appears; School is visible in the school list.	pass

2. Management: School Setup Flow

Objective: Verify that the automatically created Management user can log in and configure the school environment.

Step	Action	Expected Result	Status (Pass/Fail)
2.1	Navigate to /auth/login	Login page loads.	Pass
2.2	Enter the admin_phone used in Step 1.6	System recognizes the Management role.	Pass
2.3	Retrieve OTP from Backend logs and verify	Management Dashboard loads for the specific school.	Admin phone: 6190000001
2.4	Navigate to "Academic Setup" (Classes/Sections)	Screen to add Classes and Sections appears.	Pass
2.5	Create a Grade (e.g., "Grade 10") and a Section (e.g., "A")	Data is saved and displayed in the academic hierarchy.	Pass
2.6	Navigate to "Teacher Management" -> "Add Teacher"	Teacher creation form opens.	Pass
2.7	Enter Teacher details and assign to Grade 10-A	Success message; Teacher is now listed in the directory.	Pass

3. Teacher: Daily Academic Operations

Objective: Verify that a Teacher can log in and perform core classroom tasks.

Step	Action	Expected Result	Status (Pass/Fail)
3.1	Navigate to /auth/login and enter Teacher Phone	Login flow initiates.	
3.2	Enter OTP from logs and verify	Teacher Dashboard loads with assigned Classes/Sections.	
3.3	Select "Attendance" for the assigned class	Student list for Grade 10-A appears.	
3.4	Mark students as Present/Absent and click "Save"	Attendance is recorded successfully.	
3.5	Navigate to "Daily Diary/Homework"	Homework entry form appears.	
3.6	Enter homework description and click "Post"	Homework is saved and timestamped for the class.
