

VIDYATRACK FEATURES AND USER STORIES

=====

ROLE: PRINCIPAL

=====

Feature: Principal Authentication & Dashboard Access

Description:

Allows the principal to authenticate securely and access a consolidated, read-only dashboard providing visibility into students, teachers, attendance, marks, and key academic summaries for school oversight.

User Stories

US-PRN-AUTH-01: Principal Login via OTP

As a Principal,
I want to log in using OTP,
So that I can securely access school academic information.

Acceptance Criteria:

- OTP is required for login.
- Only active principals can log in.
- Inactive principals are denied access.
- Successful login loads principal dashboard.
- Permissions are enforced after login.

Feature: Academic Oversight – View Access

Description:

Provides the principal with read-only access to academic and operational data to monitor school performance without modifying records.

User Stories

US-PRN-01: View Student List and Profiles

As a Principal,
I want to view student profiles,
So that I can monitor student information and performance.

Acceptance Criteria:

- Principal can view list of all students.
- Principal can view student personal details (read-only).
- Principal can view student attendance history.
- Principal can view student marks and exam history.
- Principal cannot edit or delete student data.
- Access is controlled by "view_students" permission.

US-PRN-02: View Teachers and Assignments

As a Principal,
I want to view teachers and their assignments,
So that I understand staff allocation.

Acceptance Criteria:

- Principal can view list of teachers.
- Principal can view teacher status (active/inactive).
- Principal can view teacher subject and section assignments.
- Principal cannot modify teacher data.
- Access is controlled by "view_teachers" permission.

US-PRN-03: View Attendance Records

As a Principal,
I want to view attendance records,
So that I can monitor daily attendance trends.

Acceptance Criteria:

- Principal can view attendance by class and date.
- Principal can view historical attendance.
- Principal cannot edit attendance records.
- Access is controlled by "view_attendance" permission.

US-PRN-04: View Marks and Exam Results

As a Principal,
I want to view marks and exam results,
So that I can assess academic performance.

Acceptance Criteria:

- Principal can view marks by class, subject, and exam.
- Principal can view consolidated exam results.
- Principal can view teacher remarks.
- Principal cannot edit marks or remarks.
- Access is controlled by "view_marks" permission.

Feature: Student Notes Visibility

Description:

Allows the principal to view all student notes added by teachers to ensure academic and behavioral continuity across the school.

User Stories

US-PRN-05: View Student Notes

As a Principal,
I want to view student notes,
So that I understand academic and behavioral context.

Acceptance Criteria:

- Principal can view all student notes.
- Notes are read-only for principal.
- Notes are visible on student profile page.
- Notes include author and timestamp.

Feature: Parent Communication

Description:

Enables the principal to communicate directly with parents for academic,

disciplinary, or administrative purposes using approved channels.

User Stories

US-PRN-06: Send Parent Communications

As a Principal,
I want to send messages to parents,
So that I can communicate important information.

Acceptance Criteria:

- Principal can compose custom messages.
- Messages can be sent via WhatsApp and SMS.
- Message delivery status is visible.
- Principal cannot modify academic data from messaging flow.
- Access is controlled by "parent_communication" permission.

Feature: Access Control & Read-Only Enforcement

Description:

Ensures the principal operates strictly in a read-only oversight capacity,
with no ability to alter academic or operational records.

User Stories

US-PRN-SEC-01: Enforced Read-Only Access

As the School,
I want principal access to be strictly read-only,
So that data integrity is preserved.

Acceptance Criteria:

- Principal cannot create, edit, or delete:
 - Attendance
 - Marks
 - Student data
 - Teacher data

- UI hides all edit actions.
- Backend blocks unauthorized actions even if UI is bypassed.

Testing Scope

- UI Testing:
 - Principal authentication
 - Dashboard loading
 - Student, teacher, attendance, marks views
 - Parent communication flow
- Integration Testing:
 - Permission enforcement (view_students, view_teachers, view_attendance, view_marks, parent_communication)
 - Read-only access validation
 - Message delivery tracking
