

VIDYATRACK PRD

VIDYATRACK PRODUCT REQUIREMENTS DOCUMENT (PRD) PILOT RELEASE – V1 (Product Owner Controlled)

=====

ROLE: ALL ROLES

=====

=====

1. PRODUCT OVERVIEW

=====

Product Name:
VidyaTrack

Product Goal:

VidyaTrack is a website-first school operations system for Indian schools, focused on:

- Student attendance
- Student academic performance
- Parent notifications (no parent login)
- Data continuity when teachers change

The pilot prioritizes simplicity, correctness, and teacher adoption over feature depth.

=====

2. PILOT OBJECTIVES

=====

The pilot is successful if:

- Teachers complete daily tasks in under 5 minutes
- Attendance and marks are consistently recorded

- Management can answer parent queries without calling teachers
- No formal training is required beyond a short walkthrough

3. TARGET USERS & ROLES

Roles (MVP):

- Management Admin
- Principal
- Teacher
- Parent (notifications only, no login)

4. ROLE RESPONSIBILITIES (HIGH LEVEL)

Management Admin:

- School setup and governance
- Full academic visibility (read-only)
- Resolves parent queries
- No daily academic execution

Principal:

- Academic oversight
- Teacher monitoring
- No data entry responsibility

Teacher:

- Marks daily attendance
- Enters student marks
- Writes student performance notes

Parent:

- Receives notifications only
- No system access

5. SCOPE DEFINITION (MVP ONLY)

Included:

- OTP-based authentication
- Role-based access control (RBAC)

- School-scoped data ownership
- Responsive web UI (mobile-friendly)

Explicitly Excluded:

- Parent login or app
- Analytics dashboards
- Trends, charts, comparisons
- AI or automation
- Fee management
- Homework tracking

6. MANAGEMENT ADMIN PORTAL REQUIREMENTS

Purpose:

Used for one-time setup and occasional oversight.

Not intended for daily use.

Management Admin CAN:

- Create and edit school profile
- Create Principal account
- Create Teacher accounts
- Create Student records
- Create Classes and Sections
- Assign:
 - Students to Classes/Sections
 - Teachers to Classes/Subjects
- View (read-only):
 - Attendance
 - Marks
 - Student notes
 - Teacher submission status

Management Admin CANNOT:

- Mark attendance
- Enter marks
- Write student notes
- Send messages to parents
- View analytics or trends

7. PRINCIPAL PORTAL REQUIREMENTS

Purpose:

Academic oversight and continuity.

Principal CAN:

- View all students
- View attendance records
- View marks
- View student notes
- Monitor teacher submissions

Principal CANNOT:

- Create or delete users
- Enter attendance or marks
- Modify historical academic data

=====

8. TEACHER PORTAL REQUIREMENTS

=====

Purpose:

Enable teachers to complete daily academic tasks quickly.

Attendance (Pilot Decision – LOCKED):

- Each teacher has exactly ONE primary attendance section at any time.
- Teacher dashboard shows only that section.
- No multi-section attendance in pilot.

Attendance Rules:

- Attendance is taken once per day per section.
- If class teacher is absent:
 - Principal or Management manually assigns a substitute teacher for that day.
- No teacher-initiated overrides.

Marks Entry:

- Teachers can enter marks for assigned subjects only.
- Marks are editable until submission.
- Submitted marks become read-only.

Student Notes:

- Teachers can write free-text notes per student.
- Notes are visible to Principal and Management.
- Notes are permanent once saved.

=====

9. DATA OWNERSHIP & CONTINUITY

=====

- All data belongs to the school, not individuals.
- Teacher changes do not affect historical data.
- Reassignments apply only going forward.
- No deletion of academic history in MVP.

=====

10. UX & EXECUTION RULES

=====

- Management Admin and Principal use the same screens and navigation.
- Differences are enforced by permissions only.
- No management-only features.
- No daily workflows for Management or Principal.
- Screens must be understandable in under 10 seconds.

=====

11. CHANGE CONTROL (MANDATORY)

=====

- Any new request must be tagged as MVP or Future.
- No mid-sprint scope additions.
- Product Owner approval required for all changes.
