

Master Documentation Index (Product Owner Controlled)

1. Product Foundation (Locked)

1.1 Product Vision & Mission

- Problem statement (Indian school context)
- VidyaTrack value proposition
- Pilot goals and constraints

1.2 Pilot Scope Definition

- MVP objectives
 - Target users (schools, roles)
 - Explicit assumptions & limitations
-

2. Product Decision Freeze (Non-Negotiable)

2.1 MVP Feature List (Final)

- Role-wise feature breakdown
- What is included in Pilot V1

2.2 Out-of-Scope / Future Enhancements

- Explicitly excluded features
- Rationale for exclusion

2.3 Product Guardrails

- Simplicity rules
- Teacher adoption protection rules

3. Roles & Governance

3.1 Role Definitions

- Management Admin
- Principal
- Teacher
- Parent

3.2 Role Hierarchy & Authority Model

- Ownership and responsibility boundaries

3.3 RBAC Matrix (Permissions)

- View / Create / Edit / None per role
-

4. User Journeys (Operational, Not UX)

4.1 Management Admin Journey

- Setup
- Oversight
- Parent query handling

4.2 Principal Journey

- Academic monitoring
- Teacher follow-up

4.3 Teacher Journey

- Attendance entry
- Marks entry
- Performance notes

4.4 Parent Interaction Model

- Notifications only
- No login (MVP)

5. Data Ownership & Continuity

5.1 Data Ownership Rules

- School-owned data model
- Teacher exit continuity

5.2 Data Integrity & Edit Rules

- Editable vs immutable records

5.3 Audit & History Expectations

- Change tracking (future-ready)
-

6. UX Handoff Reference (Non-Design)

6.1 UX Principles Alignment

- Simplicity
- Low cognitive load

6.2 Screen Responsibility Mapping

- Which role uses which screens
 - Read-only vs action screens
-

7. Pilot Execution & Measurement

7.1 Pilot Rollout Plan

- Onboarding approach
- Training constraints

7.2 Success Metrics

- Adoption metrics

- Usage thresholds

7.3 Go / No-Go Criteria

- Scale, pause, or stop decisions
-

8. Change Control & Decision Log

8.1 Change Request Process

- How new requests are evaluated

8.2 Decision Log

- Approved / rejected decisions with rationale
-

9. Engineering Handoff (Reference Only)

9.1 Non-Functional Expectations

- Performance
- Reliability
- Security basics

9.2 Constraints for Engineering

- No scope interpretation
 - Product Owner approval required
-

10. Appendix

10.1 Glossary

- Terms used in VidyaTrack

10.2 Assumptions Register

- Known constraints and risks

10.3 Open Questions (Tracked)

- Deferred decisions
-

Product Owner Final Note

This index ensures:

- No document overlap
- No role confusion
- No silent scope creep

If every document maps to this index, **VidyaTrack will remain controlled, simple, and execution-ready.**
